#### ACTIVE KILLER CORNER

**Maine**, Lewiston. Aside from exaggerated rumors of different locations, number of murdered, and wounded in the errors in early reports, it now appears there were only [two locations, 18 murdered and 13 wounded](#). Exact details in each of the two locations may not be available before "press time", however it seems safe that both locations had a minimum of four or more murdered or attempted murder, (wounded), satisfying that part of our Rapid Mass Murder© protocol. A W/M, 40, coward with **Numerous Unstable or Troubling Symptoms©**, recently fired, was a military trained firearm instructor with **mental illness, hearing voices, threatened to shoot up his National Guard Base, and was committed to a mental health facility** last summer for two weeks. Acquiring an AR type rifle with multiple loaded magazines, he invaded a bar and grille shooting people, then moving to a bowling alley to do the same, then flee, this was two separate and distinct crime scenes of Rapid Mass Murder©. A large manhunt ensued, 48 hours later, his body was found with a self-inflicted bullet wound.

**OUR TAKE?** With obvious Numerous Unstable or Troubling Symptoms© (“NUTS”) reported, however, **NOT acted upon**, resulted in a large scale of unnecessary bloodshed. “[Maine’s “yellow flag” law](#) differs from so-called “red flag” laws. While **both authorize firearms to be confiscated**, Maine’s version must be **instigated by police**, as opposed to family or friends, and also requires a **mental health evaluation from a medical professional before petitioning a judge to confiscate a person’s firearms**”. No law can work if not used and enforced, **just as no firearm can work without an OUTSIDE FORCE** activating the trigger. It is often a [defective human](#) that misuses firearms and causes tragedies **NO FAULT** can ever be placed on an **inanimate** object. Those that attempt to blame inanimate objects like a gun do not have an [objective](#) argument, they are attempting to force their own [subjective opinion](#) on others.

## **NEW DATA: CITIZENS STOP RMM**

It is important for us to recognize that given a level playing field, armed teachers and armed citizens can and have stopped or mitigated Rapid Mass Murder at a highly significant degree. From BuckeyeFirearms.org 090623 by Rob Morse sharing the statistical work of Professor John Lott in [New data says you stopped mass murder most of the time](#). Off-Site Law enforcement is handicapped by late notification, time, and distance. LE is further handicapped when they delay entry to round-up a Posse when Single Officers Lifesaving Others has been the most successful **Off-Site LE response**. Selections: “... We live in a media-driven culture. We also have government agencies putting out biased reports that serve their political masters. It is **rare that the media even questions the agency reports**. That wouldn’t matter, but many of us confuse media headlines with facts... If an ordinary citizen stops mass-murder and the mainstream media refuses to report it, **did it really happen?** According to the **FBI, the answer is almost always “No!...”** The murders occurred in the **same place and at approximately the same time** in order to distinguish a mass-murderer from a serial killer... We now recognize two broad classes of mass-murderers. Some are **nihilists who hate the world**. Others are **narcissists who murder for fame**. The frequency of **murderous crazy people** has increased slowly, if at all. We are seeing **more narcissists** who witness the 24-7 media-culture and ache to be recognized...

... **They are willing to die to be famous.... The FBI only recognized 14 cases** where a citizen who was not an on-duty law enforcement officer or a security guard stopped the attack. Fortunately for us, economist **Dr. John Lott decided to dig a little deeper**. The **TRUTH** that Dr. Lott uncovered should profoundly change the discussion about public violence. Lott found examples of attempted mass-murders that the **FBI either missed or ignored**. **According to his research, ordinary citizens stopped mass-murder 157 times, or 35.7% of the time... We can’t expect ordinary citizens to defend the public when those ordinary citizens are disarmed by law**. Dr. Lott looked to see if the attack occurred in a so called “**gun-free zone**”. Two remarkable things leap out when you bother to ask that question. **First, Lott found that mass-murderers attacked “gun-free zones” about 98% of the time**. No wonder honest citizens didn’t stop these murderers. Law abiding gun owners were **disarmed by a plastic sign** that the murderers walked right past.... The high body count was because **none of the victims had any tool at all to defend themselves**. Politicians and corporate risk managers created an environment full of disarmed victims”.

## **RMM: REALITY TRUTH**

Another really good article by Rob Morse. from BuckeyeFirearms.org 092023 Our readers may note that we have addressed some of these points for years, however as a researcher with a fresh outlook

and entertaining writer, Morse has organized much into a single article that is MUST READ information for those interested in countermeasures for Rapid Mass Murder. [Is good news about public violence even a thing?](#) Only mere selections here: *“We learned how to stop mass-murder in several ways we’ve done it, so we are talking about actual practice rather than mere theory talk about what really happens **I’ve studied public violence for a decade, and there is real hope to stop mass-murderers. The truth is that mass-murder is hard, and ordinary citizens stop mass-murderers most of the time. That is fairly obvious if we’re willing to look at it for a minute.** Remember one of the times you walked into a group of your friends and shouted hello. We thought we saw everyone, **but we really didn’t.** A friend we didn’t see slaps us on the shoulder and asks how we’ve been. We were looking at the group so we never noticed our friend come up behind us. **We don’t see everything.** As soon as we look at **one thing, we become blind to the rest of the world around us.** That common experience explains why we kill mass murderers time after time. To put it in simple terms, **they don’t see us and we shoot them.** Being shot at makes the attacker feel deeply vulnerable. Usually, they run away. **This wasn’t the violence they had imagined** and they usually take their own life. The fact is that **mass-murderers are vulnerable.....**”*

*... **Where ordinary citizens were allowed to be armed, we stopped attempted mass-murderers almost two-thirds of the time.** That also had a drastic effect on the number of people who were injured or killed. **Ordinary citizens like you saved over a thousand lives.** It is clear that stopping the murderer means that more innocent people aren’t getting shot. It also means we can **move the people who were injured to safety and we can quickly start life-saving treatment by stopping the bleeding** There are fewer victims to treat, so each victim gets more attention, and the victims are in better condition when EMTs first reach them. None of that happens while we wait another 15 minutes for the police to arrive. It turns out that the murderer wasn’t so deadly because he had some Hollywood super weapon. **Mass-murderers hunt us in gun-free-zones.** The murderer was deadly because he could **kill at will without someone to stop him.** Millions of us go armed every day, but **we obeyed the rules** and left our guns outside. The mass-murderer didn’t. I’m sure that some of you can see the answers already: The personal solution is easy: **Make sure that someone can shoot back; we’ve never had a school attacked where they had a public program of armed school staff;** The legal’ solution is simple. **Make property owners responsible when they disarm the people who obey the law.** If you stop me from protecting my family, then you become responsible for their safety; The media solution is easy as well. **Stop giving mass-murderers a multi-million-dollar publicity campaign!** All that might sound simple, but the political solution is harder. We have to ignore quack cures that have failed in the past”.*

## **SECOND PUBLISHED: PRECIOUS FOREKNOWLEDGE**

As a public service, getting “Precious Foreknowledge” into the right hands of a larger audience of those most affected, (**teachers, school staff, parents, church leaders, staff, parishioners, workplace owners, staff, workforce, Etc.**). ## SHOTS FIRED CORNER

**Minnesota**, Foley, from AP.com 101223 by Mark VanCleve and Steve Karnowski via a lead by one of our Ret/CoP readers. [Five officers shot in Minnesota confrontation](#), Selections: "... *Five drug task force officers tried to serve a search warrant at a property in rural Minnesota... officers announced their arrival at a home in Glendorado Township around 7 a.m. and immediately came under fire. ... they returned fire and retreated. The officers' injuries were not life-threatening, the armed occupant, W/M, 64, was taken into custody around 10:45 a.m. after several hours of negotiations... he was already known to law enforcement in the area and police said he was not surprised by the shooting*".

## ROOT CAUSE: MURDER/ATTEMPTS

The plunge of a knife; the swing of a hammer; the down stroke of a club; non-stop knuckles; swift shod-foot kicks to the head; the pull of a trigger, are all generic examples of a criminal human motivated for murder. Legitimate self-defense is of course a right and murder a criminal event. **The root cause is and always was human-caused. The correct thing to do would be addressing the human factor**, be it mental illness, or purely evil criminality. Instead, we have wrong-headed politicians and or media that would attack guns and **honest law-abiding gun owners** in an attempt to deprive them of both the right of self-defense to a growing violent crime problem, and the Constitutional right to keep and bear arms. Those politicians and media appear to be more on the side of criminals and those that would disarm America, (communists, Marxists, socialists, etc.,).

***Nothing is more shameful to a civilized nation than to allow itself to be Governed by an clique of sovereigns who have given themselves over to dark urges and that without resisting.*** Hans Scholl & Sophie Scholl, (White Rose Leaflet #1, 1942)

## DEFENDING YOURSELF

From PersonalDefenseNetwork.com 092423 by Klint Macro [Defending Yourself From Criminals and Elected Officials](#) Summary of categories: "... *DEFENSIVE CONCEPTS AND PRINCIPLES; WARRIOR EXPERT THEORY; EXERCISE AND FITNESS; DENIAL KILLS YOU TWICE; SITUATIONAL AWARENESS; ACTION IS FASTER THAN REACTION; VERBAL CHALLENGES; BALLISTIC COMMUNICATIONS; PREDATORS SEEK EASY VICTIMS AND NO WITNESSES; PRACTICE RETENTION TECHNIQUES; COORDINATED DEFENSIVE TACTICS; THE FOURTH CHECK AND BALANCE... Being a "responsibly armed American-family first responder" requires us to be "well regulated" with our particular tools of self-defense, but we must also be prepared to face, accept, and survive the financial, legal, emotional, and moral aftermaths that will most likely come if we are ever involved in a dynamic critical incident. **Dismissing the possibility of contemporary elected officials limiting, restricting, or abolishing our ability to defend ourselves and those we love, or banning the tools by which we choose to do that, is as short sighted as denying that evil people do bad things to good people.** Become informed and educated as to how government works, how legislation is written and passed, and what elected officials can and cannot do in regard to the powers of their governance. This government "of the people, by the people, and for the people" is not set up so that the law-abiding citizens serve the government ... it is the other way around. A well-educated and informed citizenry promotes adherence to the framework by which this country was built. An educated and armed citizenry is the fourth check and balance in our constitutional republic. It is an honorable station. Act accordingly*".

## TACTICS

From Police1 091123 by Warren Wilson. Kyle Dinkheller's sacrifice: How the tragic 1998 incident continues to shape law enforcement training and tactics. "[My Story: Dinkheller](#)" – gives officers of all experience levels a chance to learn from this past event. Selections: "... January 12, 1998, is the day [Kyle Dinkheller](#) gave his life and, in doing so, saved countless other cops' lives. The lessons learned from this tragedy have benefited law enforcement training for the past quarter-century and will continue to do so in perpetuity. Category titles: "... **THE EVENTS OF THAT DAY; BACKGROUND; LEARNING POINTS; MINDSET; STRESS INOCULATION = RESILIENCY; TACTICS; FORCE; EQUIPMENT; TRAFFIC STOP TACTICS; "DINKHELLER" AND VIRTRA.** After reviewing the program and all branches of the VirTra "Dinkheller" program, we have another tool to prepare our folks for the increasing dangers they face. We have used this incident, not as a critique, but as an immeasurably expensive learning tool. We should thank VirTra for taking on this difficult project and passing it on to us as a no-cost update. But mostly, we should be thankful for Kyle Dinkheller". For more information on the "Dinkheller" curriculum, [click here](#). About the author Warren Wilson is a captain, training commander and rangemaster with the Enid Police Department in Oklahoma. He is a former SWAT team leader, current firearms instructor and writer. He has been a full-time law enforcement officer since 1996".

**OUR TAKE?** At my former agency as rangemaster, decades ago, we had been using the original Dinkheller video for years as a powerful tool, part of new officer off-range firearms training. In a sit-down relaxed atmosphere, the individual officer would declare "Stop" at the earliest point in the video when he identified a danger clue and described what he would do differently. The video would then continue to the next stop declaration. The process gave us insight into the new recruit's thought process while allowing us to offer appropriate feed-back guidance where necessary. This gave us a uniform process into part of our deadly force training. While the frequency of stops, explanations and continuing restarts varied between recruits as the video progressed, we felt our improvisation was a positive training step.

## BIDEN ADMIN TERRORIZES GUN OWNERS

From BuckeyeFirearms.org 091223 by NRA/ILA. [Biden Administration continues to terrorize gun owners.](#) Selections: "... ***In the legal world there is a Latin term in terrorem. The term is used to describe actions designed to intimidate or terrorize someone into a certain course of conduct, often in cases where the actual legal ability or willingness to demand that course of conduct are dubious. In short, rule through fear rather than legitimacy or the law. In terrorem is an apt descriptor for the Biden administration's notice of proposed rulemaking misinterpreting the statutory definition of "engaged in the business" of dealing firearms. The draft rule appears designed to give the public the misimpression that private individuals are no longer permitted to sell personal firearms without obtaining a Federal Firearms License (FFL or gun dealer license) or conducting the transaction through an FFL. Further, the way Biden's Department of Justice constructed the draft rule suggests that the administration understands the limits of their authority but would still like to mislead the public into foregoing what should be lawful Second Amendment conduct... Despite erroneous claims about the purported popularity of so-called "universal" background checks, the American people have repeatedly rejected efforts to criminalize private firearm transfers through their elected representatives. Stymied by democracy, anti-gun forces turned their attention perverting the statutory definition of "engaged in the business."***... the Biden administration would use this small change as an opening to pervert the statute. These policymakers' refusal to understand this threat was even more disappointing given Biden's repeated *weaponization of the executive branch against his political enemies and flagrant*

*misinterpretations of federal law, as determined by the U.S. Supreme Court...* In other words, DOJ will try to use these presumptions in already dubious executive agency proceedings but won't try to take these bogus presumptions into an actual courtroom. A cynic could be forgiven for thinking the entire exercise was designed to **terrorize law-abiding gun owners out of engaging in what should be lawful conduct, while avoiding judicial scrutiny.** The classified ad and gun show presumptions are even more absurd in historical context. As noted, the American people through their elected representatives have repeatedly rejected efforts to criminalize private firearm transfers. **Moreover, the Congress has explicitly rejected limitations on private firearm transfers pursuant to classified ads and gun shows.** President Joe Biden should know this. In late 2012, President Barack Obama tasked then-Vice President Biden with shepherding gun control legislation through Congress. The chief result of this effort was the Manchin-Toomey amendment... Congress rejected the Manchin-Toomey proposal... So, if Congress ever intends to ban private firearm transfers pursuant to ads and gun shows, it has demonstrated that it knows how to do it. Given this clear legislative history, it's no wonder DOJ doesn't want to test its inventive statutory interpretation in the criminal courts". Also see [Biden ATF declares war on Second Amendment](#), sidesteps Congress with 'universal' background check rule.

## **GUN GRABBERS ON WHITE HOUSE PAYROLL**

As part of his unmeritorious and un-American appointments, POTUS Biden has again arranged for an unconstitutional rabid anti-gun activist to be in charge of the ATF. From CCRKBA.org 092023 by Alan Gottlieb [CCRKBA CHAIR 'APPALLED' GUN GRABBERS WILL BE ON WHITE HOUSE PAYROLL](#) Selections: "... The announcement that President Joe Biden will launch a White House **"Office of Gun Violence Prevention" LED BY GUN CONTROL PROPONENTS** brought a scathing reaction from the head of one of the nation's **top grassroots gun rights organizations.** Alan Gottlieb, chairman of the 650,000-member Citizens Committee for the Right to Keep and Bear Arms, was quick to respond. "I am appalled that Joe Biden is putting the gun prohibition lobby on the **White House payroll,**" Gottlieb said. "I know that many pro-gun rights members of Congress are working on legislation to prohibit funding for this obnoxious scheme. "I wonder," he mused, "how much of their time will be spent keeping guns out of Hunter Biden's hands now that he has been indicted on gun charges?"... Reports in the national media say the effort will involve White House Staff Secretary Stefanie Feldman, who is described as "a longtime Biden aide with expertise on firearms issues." Also reportedly on board are other **gun control proponents** including Greg Jackson, executive director of the Community Justice Action Fund, and Rob Wilcox, senior director for federal government affairs at Everytown for Gun Safety, according to a story in the Washington Post..."

## **BIDEN WRONG AGAIN!**

Our president has been wrong about so many things so many times that one has to wonder "Is he for us, or against us? Is it happenstance, coincidence, or enemy action?... As Robert Gates, former defense secretary in the Obama administration, once put it, "[Biden has "been wrong on nearly every major foreign policy and national security issue over the past four decades."](#)... .. "[Don't underestimate Joe's ability to f-k things up.](#)" said POTUS 46 Obama. "There is no legitimate claim the former president was wrong about his vice president. **The evidence that he was on target is everywhere, from the border to the economy to the crime explosion on Biden's watch**"... Something that can be documented by government records and statistics would be **difficult to ignore**, however, the Biden administration has done exactly that, formulating a documented ass-backwards **whopper of a LIE to the American public.** "[Based on hate crime victimization rates and the fact that Jews are so disproportionately targeted in hate crimes compared to blacks and Muslims, is it fair to say that hate crimes against Jews are routinely under-reported by the media relative to the reporting of hate crimes against blacks and Muslims?](#)... Obviously, since more than half (60.2%) of the anti-religious hate crimes in 2019 were against Jews, there were **more anti-religious hate crimes against Jews (1,032) than**

*incidents of hate crimes against ALL OTHER RELIGIOUS GROUPS COMBINED (683)”... “White House slammed for ‘tone deaf’ [unveiling of anti-Islamophobia strategy as antisemitism surges](#). The Biden administration faced backlash Wednesday after announcing that it would develop “the first ever US National Strategy to Counter Islamophobia” in the US amid rising levels of antisemitism... “According to the [FBI] director, Jews make up 2.4% of the US population but are the targets of 60% of hate crimes... This is why it is apparently important to fight Islamophobia according to the White House...” (??) When your own government intentionally feeds its citizens misinformation, propaganda and favors the side that hates Jews, it is time to remove those that deceive.*

## INCENTIVIZING CRIME?

[Why Americans Are Buying Guns](#) from PragerU 090522 05-Min Video “In the aftermath of every mass shooting, we hear calls for: commonsense gun control. But **how do you determine which gun laws are common sense?** Jason Riley, senior fellow at the Manhattan Institute explores this question”.

## ANOTHER 2nd AMENDMENT WIN

In this day-and-age when wrong-way POTUS Joe is trying to outlaw your inanimate objects and or criminalize you for owning them, he gains ground by another unmeritorious appointment of an anti-2nd amendment and anti-gun activist as director of the ATF. Fortunately for us, there are constitutional patriots, lawyers, judges and legislatures that resist wrong doing. The logic “**Guns don’t kill people, persons with bad intentions kill people**” is absolutely true **with the qualification**, of course guns and a variety of other inanimate objects misused can kill. **Objectively however, inanimate objects lack the ability to intend, decide, think or even act on their own without an outside force, commonly a human, to activate it. ‘IT IS EXCLUSIVELY the person with a weapon that brings the danger’.** To resist the mistake of barking up the wrong tree, our logical target then should be to **identify potential humans likely to harm others** such as profiled in [Precious Foreknowledge to Recognize Threats](#). That article is specific to and addresses only random actors that commit Rapid Mass Murder© and **excludes the far more common and frequent black and brown criminal gang shoot-outs and drive by shootings**. Still, some data there may apply partially to criminal gangs.

A good news example of a 2nd Amendment win is from SAF.org 092223 by SAF founder and Executive Vice President Alan M. Gottlieb. [SAF CHEERS RULING OVERTURNING CAL. MAG BAN; WILL AFFECT OTHER STATES](#). Selection: “ U.S. District Judge Roger Benitez handed down the 71-page ruling, noting in his decision, Removable firearm magazines of all sizes are **necessary components of semiautomatic firearms. Therefore, magazines come within the text of the constitutional declaration that the right to keep and bear arms shall not be infringed. Because millions of removable firearm magazines able to hold between 10 and 30 rounds are commonly owned by law-abiding citizens for lawful purposes, including self-defense, and because they are reasonably related to service in the militia, the magazines are presumptively within the protection of the Second Amendment. There is no American history or tradition of regulating firearms based on the number of rounds they can shoot, or of regulating the amount of ammunition that can be kept and carried**”.

## EDGED WEAPON CORNER

### ROOSEVELT ISLAND INCIDENT

New York [Incident on Roosevelt Island](#) from NY/AG (undated) 05-M Video from four officers Body-Cams. Summary: “A domestic requiring several officers and a riot shield on the apartments 7th floor begins outside the up-elevator, suddenly, a W/M. 21, large knife wielding assassin stabs one officer in

the back, (saved by his vest?) and lunged toward the officers cornered in the elevator, resulting in a justifiable fatal fusillade of gunfire from officers putting the back stabbing male down, still, he would not follow officer's commands to "Drop the knife"... waving the knife as he lay on the floor", earning more appropriate gunfire.

## RIOT CORNER

### FED AGENT PROVOCATEURS JAN 6!

For those of you that followed the Jan 6 video-visible facts, including video footage **you were NOT were supposed to see**, (thankfully revealed by Tucker Carlson), here is a bit of follow-up disclosing your suspicions were correct including both 13-M video and transcript. From GlennBeck.com 092123 by Glenn Beck [Stop thinking about the Roman Empire. Do This instead](#). "Apparently, men think about the Roman Empire a lot often in a positive light. But that's NOT the solution, Glenn warns. We don't need a Caesar to fix our problems. **We need to start standing for the Constitution again.** Glenn reviews some of the insane news of the day, from Attorney General Merrick Garland's infuriating Congressional testimony to the Biden administration's decision to go after a German family who fled to America for religious freedom. "I'm not sure I know how to help anymore," Glenn says. "The hour is growing very, very late." But there is hope. **Conservatives just need to get their act together**".

### FELONY FLASH LOOTERS

Once again we see the criminal element using the poorest excuse for "Party-Looting" under false cover of alleged anguish for a justified police action to a fellow criminal. From WGAL8 092723 by Katelyn Smith, Anchor via a lead from one of our Ret/CoP readers. [More than 100 people loot stores in Philadelphia](#). Selections: "... police said they made 15 to 20 arrests after large crowds of young people, **mostly black teenagers in hoodies** looted stores in Center City... people in the crowds, wearing masks, were breaking into stores and stealing whatever they could. Stores such as Lululemon, Footlocker and the Apple Store were looted. The camera then points to an iPhone in the woman's hand, and she screams, "They're tracking us. Burn your iPhones." A little while later, people are seen throwing the "free iPhones" to the ground, slamming them one at a time as the alarms continued to sound on the stolen merchandise, which appeared to have been disabled. **"So just plain destruction in the end"** **Police said they also recovered two guns** and added that the looting had nothing to do with the peaceful protest that took place earlier. That protest happened after charges were dismissed against a police officer who shot and killed a man in August. **Those doing the ransacking were not affiliated with the protest** [HUNDREDS OF BUSINESSES TO GO ON STRIKE OVER RAMPANT VIOLENT CRIME PLAGUING CALIFORNIA CITY](#)". Also see **Democrats' smash-and-grab politics** from WashingtonTimes.com 120121 by [Tammy Bruce](#) (and [Party Looting Video](#)) [Democrats' smash-and-grab politics - Washington Times](#).

**OUR TAKE?** These organized criminal opportunists scatter like cockroaches, rats or animals after their strongarm robbery has grabbed the goods. They have no empathy for store owners, anyone in their way, nor could they name the individual, state and city where the criminal thug they may plead was wrongfully shot by police. Absolutely no protest action, its **pure organized criminal greed**. Could the RICO Act be relevant here for criminal conspiracy? Unreported demographics of looters? Largely younger black and brown criminals if you can believe your own eyes! The evil MO of felony flash looting will continue so long as they are successful, until store owners and or law enforcement develop appropriate countermeasures. Task forces will of course need outside-the-box strategy thinking. Store owners at risk will need legal advice as to just what actions they can take. We all need to understand why one prefers to **NOT** [witness the "making of sausages"](#). So too would it be true for

countermeasures to riotous felony flash looting, as effective countermeasures may not be pretty or pleasing to everyone!

## LAW ABIDING LEFT DEFENSELESS?

New Mexico, Albuquerque, from APnews.com 090923 by Morgan Lee. Selection: "... Governor Michelle Lujan Grisham on Friday issued [an emergency order](#) suspending the right to carry firearms in public across Albuquerque and the surrounding county for at least 30 days in response to a spate of gun violence. The Democratic governor said she expects legal challenges but was compelled to act because of recent shootings

## FACT CHECKERS

From CitizensForFreeSpeech.org 091423 by Kimberly Miller. [Fact checking the fact-checkers](#). Selection: *"The term "fact-checker" has become a euphemism for those designated as arbiters of truth and assumes the general population needs help sorting fact from fiction. ## PLOT TO CONTROL YOUR KIDS

From Glenn Beck | Glenn TV | Ep 305 092023 48-M Video Parental Advisory: [The Explicit Plot to Control Your Kids](#) Selections: "...Our basic rights are under attack, and parents face a terrifying question: *Who gets to raise children you or the government?* Glenn highlights an alarming new law in California that wants to **FORCE parents to affirm children's gender dysphoria or ELSE.** This overrides decades of Supreme Court precedents for the protection of parental rights. For many of our elected officials, the Constitution only seems to matter depending on the context. This Pandora's box was cracked open by the worst American leaders during the 2020 pandemic. Now some of them are apparently longing for the good old days when they **tried to play God with your unalienable rights.** The New Mexico governor's gun ban is just one of several stunning recent assaults on the First and Second Amendments. What are law-abiding Americans supposed to do when elected left-wing officials

**act as if the Constitution is optional at best and irrelevant at worst? These attacks from the Left are relentless. Resistance must be just as relentless”.**

## **PARENTS FORCED TO AFFIRM?**

From GlennBeck.com 092223 by Glenn Beck (Use LINK for 16-M Video). [What just passed in California is coming for ALL KIDS across the nation](#): "Parental rights are under attack like never before. Take California, which just passed a bill that would FORCE judges in child custody hearings to consider whether a parent supports a kid's "gender transition" which is probably **the most life-altering and permanent thing they can do to themselves**. But what just passed in California is coming for ALL KIDS across the nation. Glenn discusses how the White House is also pushing the agenda of "affirming your child's identity," in the name of health and safety, of course. He also reviews how California's extreme progressive laws are often picked up by other states and how similar policies in Canada have led to the jailing of parents. "This new law should alarm and disgust EVERYONE in America for the way it will let the state override private parenting decisions," Glenn says. It's time to ask, **who gets to raise children "you or the government"?**

## **ALL-VOLUNTEER MILITARY IS DYING?**

From WashingtonPost.com 092123 Opinion by Mark T. Esper, former Defense Secretary. [The all-volunteer force is dying. Here's how to save it](#). Selections: "... America's all-volunteer force is slowly dying. And unless we take action soon to reverse the trend, **we are putting our nation's future security at risk**. This year, the all-volunteer force's 50th, has been another tough one for military recruiting. The largest services will **all miss their recruiting targets**... Experts point to a variety of reasons, such as insufficient pay and benefits, a difficult work-life balance, fear of personal harm, and a relatively good job market. Some on the right say military "wokeness" is the problem; some on the left blame sexual assault and discrimination in the ranks. **Military professionals tell me all these factors are at play**. But even if these issues were "fixed," the all-volunteer force's long-term decline would continue. The fact is, the pool of Americans ages 17 to 24 who are qualified and interested in serving continues to shrink... It's hard to believe that a nation of 333 million people can't produce a larger pool. **The numbers are all heading in the wrong direction**, driven by broader cultural and lifestyle trends and a society unfamiliar with the **0.5 percent of their fellow citizens who defend them**... The scope and scale of these trends are beyond the means of the Pentagon alone to remedy. Given the consequences, this is a challenge to our national security that **must be addressed at the highest levels**...

... The White House and Congress need to work together to reverse the slide. They should begin by setting up a bipartisan commission of esteemed leaders, much as was done in 1969 to create the all-volunteer force — but this time, **the mission would be to save it**... should look at ways to improve the health and fitness of the nation's youths, from resurrecting the long-abandoned Presidential Fitness Test to ensuring that physical education classes are part of every student's daily schedule... The Armed Services Vocational Aptitude Battery, the **military's enlistment test for academic eligibility**, should be overhauled to ensure that it's appropriate to the occupational specialties the military needs and that young people are allowed more time, tools and attempts to pass it... **JROTC, a proven program** that not only helps teenagers develop important life skills but also familiarizes them with the military, should be expanded nationally with its own funding to ensure better geographic representation and opportunity for all... Congress must once and for all **give military recruiters the same access to U.S. high schools that colleges and prospective employers enjoy**... Our elected leaders must also educate and inspire our youths by addressing their concerns and misconceptions, **extolling the virtues of military duty and discussing the benefits and opportunities that come with service**. They should also seek the assistance of sports figures, entertainers and others who exert influence

over young Americans to help promote these messages. **With threats from China and elsewhere growing, we cannot ignore this issue. Most solutions will take years to bear fruit. But IF WE ARE TO DETER WAR, BE VICTORIOUS IF IT COMES AND SAFEGUARD OUR DEMOCRACY, we will need to maintain a sizable high-quality force of volunteers. That means today's leaders must act now to entice the next great generation of Americans to serve**".

## USA BORDER INVASION

It is no secret that the overwhelming invasion of our southern Mexican border **is and has been allowed to get completely out of control**. In an **abuse of presidential emergency powers**, POTUS Biden created the invasion problem, "[The Gene is out of the bottle](#)", making any possible solution much harder to solve. The **unvetted, unvaccinated and diseased alien criminals**, terrorists and potential sleeper cell agents. are being both flown and bussed at taxpayer expense in the **dark of night to avoid transparency** and distributed all throughout America **without the knowledge or permission** of governors, mayors or residents. **The presidential oath of office to protect citizens and enforce the sovereignty of our borders is being violated**. The motive? Apparently and evilly, to eventually gain new democratic voters for a **forever democratic, one-party dynasty**...

... Worse are the getaways, including [160 different countries](#), probable agent provocateur's enemies on the No-Fly list, etc. By now most who pay attention are aware that antisemitic Palestinian Islamists in the Gaza strip attacked Israel by [air, land and sea](#), in a Hitleresque [Blitzkrieg](#) surprise attack, intentionally targeting innocent men women and children for both murder and hostages. Our chief researcher Don Boal shared an MP4 (No Link), video showing dozens of cars on a highway riddled with bullets and the innocent occupants finished off one by one. These bloodthirsty Jew hating Islamist savages will be hunted down and punished. Unfortunately, these cowards hide in and behind civilian locations. We mention this in connection with our own but silent border invasion as the myriad of illegal aliens undoubtedly **includes Islamist assassins, spies, agent provocateurs, criminal Mexican drug cartel members, and even worse, whose aims would and could destroy America from within**. Potential sleeper cells in America are being reinforced by new sleeper agents. Whose side is Biden on? **NOT American Citizens!**

## GAZA PALESTINIANS HATE HAMAS?

From CNN.com 101723 Opinion by Yasmine Mohammed. [Many Palestinians in Gaza hate Hamas. My father certainly did](#). "*When my father, who was born and raised in Gaza, was still alive, he often spoke out against Hamas, calling it the ugly face of the Palestinian struggle everywhere. Since Hamas' attack on Israel, as I have read post after post on social media referring to Hamas*

as [freedom fighters](#) involved in anti-colonial resistance, **I have been struck by the DEVASTATING WEIGHT OF THIS LIE. It is an insult to Palestinians to refer to these terrorists as our freedom fighters. At the hands of Hamas, the [Jewish people](#) have endured horrors not seen since the Holocaust. And, like the Nazis, Hamas does not view Jewish people as human beings. According to [its 1988 covenant](#), every Jew must be eradicated from this earth. ## SITREP: ISRAEL AND HAMAS

They are NOT like us! According to Wikipedia, "the UN Security Council treats Palestine as a [NON-sovereign entity](#), preventing its admission to the UN General Assembly as a full member state". The de facto governing body in Gaza is the [Palestine Authority](#) which is ruled by Hamas, a Sunni Islamist [terrorist organization](#). Their charter calls for the [obliteration or dissolution of Israel](#). Hamas is a branch of the [Muslim Brotherhood](#). "Hamas has only one agenda, to destroy Israel and to murder Jews," said [Secretary of State Antony Blinken](#). True to form, on Saturday, October 7, 2023, Hamas, without warning, attacked the sovereign country of Israel, in a sneak-attack, cowardly targeting mostly, unarmed innocent non-combatants. Thus far, [killed more than one thousand Israelis](#) and injured more than three thousand. These [antisemite, medieval, and barbaric savages](#) murdered by various means, **beheading, including children and infants, burned alive, raped (broken pelvises) and hands-tied head-shot assassinations**. Appropriate defensive repercussions from Israel will be ongoing. Sadly, these pure evil terrorists are known to operate from bases inside or under non-combatant locations, (Schools, Hospitals Etc.), and uses innocent Palestinian "hostages" as shields. In spite of Israel's order warning locations ahead of time, (dropping leaflets Etc.), it will be inevitable that innocent Palestinians will be harmed by HAMAS'S ACTIONS. **Hamas told people to ignore the order and set up roadblocks in order to prevent the mass evacuation** of approximately half of the Gaza Strip, [prevented them from fleeing](#). **Any resulting Palestinian deaths and injury was squarely on the shoulders of the crisis causer Hamas**. Both Lebanon and Syria attacked Israel with limited shelling and rockets during this time...

... How this sneak attack could have occurred without warning appears to be similar to America's 9-11 attack where one of the 9-11 commissions conclusions was "[The most important failure was one of imagination](#)". Underestimating the enemy's secretiveness, planning, training and methods... "... A careful campaign of deception ensured Israel was caught off guard when the Palestinian Islamist group Hamas launched its devastating attack, enabling a force using [bulldozers, explosives, hang gliders and motorbikes](#)... "... Former US officials say there is little question the [massive stockpile of weapons used in Saturday's attack was acquired and assembled with help from Iran](#)..." "[Palestinian resistance is the best way to overthrow Israel, Iran's Supreme National Security Council Secretary Ali Akbar Ahmadian told Hamas leader Ismail Haniyeh](#)..." Tens of thousands protest across Mideast after [Hamas called for 'Day of Rage'](#). A commonality of pro Palestine supporters is unfair barefaced HATRED, [antisemitism](#) and or [fundamentalist Islamists](#). The innocent Palestinian populace deserve our empathy, however, not their savage terrorist Hamas government, nor anyone that supports Hamas.

## REALIZE THIS!

From GlennBeck.com 101723 by Glenn Beck 13-M Video. [If we don't realize this, it will be the 'end of the western world'](#). "A new study shows that Americans are prioritizing saving for retirement less and less **as the price of food, gas, and housing skyrockets**. This is still just the beginning, Glenn warns, as the world continues to spiral into chaos. We've seen this before, about 100 years ago. Back then, evil put on a Hugo Boss-designed uniform. **Now, evil is rising in the Middle East. Because of this,**

Glenn puts it simply: **"WANT MORE PEACE? HAVE LESS HAMAS."** We must start calling evil what it is before America becomes like Europe with a **disturbing amount of support for the evils of Hamas**. If we don't, Glenn warns, "this is the beginning of the end of the western world."

**"When peace comes, we will perhaps in time be able to forgive the Arabs for killing our sons, but it will be harder for us to forgive them for having forced us to kill their sons. Peace will come when the Arabs will love their children more than they hate us".** [Golda Meir](#)

## HAMAS ATROCITIES

TEL AVIV, Israel -- From A BC.com 101623 Reporter's Notebook By [Matt Gutman](#). [The horror as Israeli authorities show footage of Hamas atrocities](#). Selections: "...You won't see rape, there's no rape in this video... **We won't show you beheaded babies,**" a senior Israeli officer said to a small group of journalists, saying such **images existed but would not be shown**. The journalists were the first to watch a screening of an hour-long reel cobbled together from **Hamas helmet cam, mobile phone video, surveillance video, dashboard camera video and victims' livestreams**. It was part of the Israeli military's effort to document and call attention to the Oct. 7 atrocities, when the [militant group Hamas](#) launched an [unprecedented attack on Israel from air, land and sea](#)... Journalists were **not allowed to record or use the video presented**, and our phones were deposited outside the room... The video started slowly. Hamas fighters are seen on the back of a pickup, with RPGs spiking out in every direction. **You can sense their excitement**. The video shows several groups cut through the fence and wave a pickup truck through. Then it shows three separate angles of **motorists in Israel being flagged down**, then gunned down -- the AK-47s puffing smoke -- on the road outside the Kfar Aza and Be'eri kibbutzim. **Bodies are yanked out of cars**...

... They poke into one house and you can hear someone's alarm going off. It's 8 am... At a playground, he wonders in Arabic, **"Where are the kids?"** **The duo set fire to one house, shoot an encroaching dog, and shoot another old man through a darkened screen**. They are parsimonious with their ammunition, and **chillingly unhurried** as they pick through the tidy vegetable gardens and open the latches of wooden fences... [MORE: Scene of a 'massacre': Inside Israeli kibbutz decimated by Hamas fighters](#) Then the video gets grisly. Other militants are busy **mashing a dying man's face** with their boots. Another pair screams **"Allahu akbar"** as they use a garden hoe to try to **decapitate another man**... **In one, a terrorist is standing on an Israeli man's chest and shoots him point-blank in the face**. Then, the scenes of bloodied bedrooms start to blur. The rooms and the gore are the same -- **it's how the bodies are arrayed in death that's different**. **There are so many children. Some are jam-packed together in a slippery mass of human flesh. Huge blood stains streak the tiles**. So many of the bodies are burnt. It was **unclear** if this was because they were set fire to or if it was from the grenade blasts. Other videos show **Israeli first responders trying to put out the still-smoldering skeletal remains of victims -- with water bottles**, as if watering a parched plant...

... An IDF Soldier covers his nose while walking past Hamas militants and Israeli civilians who were killed days earlier in an attack by Hamas militants on this kibbutz near the border with Gaza... In another video, a grenade was apparently tossed into one of the bomb shelters that line the roads in southern Israel. It was filled with partygoers who'd left the Supernova music festival. **The camera shows a flash of limbs, some dismembered, some still attached to writhing, screaming bodies**. A selfie camera shows a young man weeping, while someone croaks hoarsely in the background, "help, help." Hamas then drags survivors out, some by their hair, to trucks, and then batters them some more in the backs of the pickups on the way to Gaza. **Forensic images show bodies burned in cars, on beds, on the streets and in the fields in various states of incineration**. One video shows the **sheer number of Hamas attackers** at the Supernova festival. There's no way they hadn't planned to raid the party. Those were some of the most professional and well-equipped fighters we saw in the video. **Some of**

**them are wearing police uniforms, others are in military uniforms.** There's a video from inside Israel's main base bordering Gaza. Hamas attacks progressed inside the base. They shoot up an office. **Soldiers squirm and try to fight; they're shot, too.** The attackers grab two M4s. **Outside, soldiers are decapitated.** Otherwise, the bodies seem untouched. The heads were not in the images... men armed with Israeli weapons, in Israeli uniforms **fighting in the street could indeed wreak havoc**".

## TRAITOR HAMAS APOLOGISTS

Especially in America, but also abroad, it is hard to understand protests supporting the uncivilized, inhumane, savage Hamas sneak attack on Israel. This is a worrisome situation for America and our world. **That this [support for a terrorist organization](#) occurs on campuses of higher learning is shameful**, indicative of poisonous propaganda fed to students by **traitorous unpatriotic, Un-American and activist professors.**

## MORAL IMBECILES: HAMAS APOLOGISTS

From WashingtonPost.com 101323 opinion by [Ramesh Ponnuru](#). [Hamas apologists are moral imbeciles, but they're also a fringe](#). Selections: "... For most of us, it has taken no heavy intellectual effort to muster a morally healthy response to the monstrous attacks that Hamas carried out in Israel. We instinctively feel revulsion and want safety for the innocent and justice for the perpetrators and their accomplices. **In certain corners of the left, though, ideology has suppressed these normal sentiments.** "It is not hyperbole to say that **many left-wing supporters of Palestine celebrated Hamas's atrocities,**"... These are the people who describe slaughter as "resistance" or "decolonization." They are the academics and campus organizations who put most or all of the blame on Israel, the activists who call for condemnations of "the occupier not the occupied,"... Others have avoided such rancid commentary but also fallen short of what honesty demands... They might not have harshly anti-Israel views themselves, but they know that those views have a constituency inside the academy... it's a simplistic worldview that insists that the first and last question to ask about any political controversy is who are the oppressors and who are the oppressed, and treats the latter as practically incapable of doing wrong. This ends up dehumanizing everyone, **implying as it does that Palestinians have no choice but to kidnap and murder children.** The rest of us are justified in judging, scorning and **ridiculing anyone who makes excuses for Hamas...**

**... Let's not forget the Palestinian Authority's role in this catastrophe.** At the same time, we should not exaggerate the number or sway of Hamas apologists... Conservatives, meanwhile, have been largely supportive of Israel... **The news media and, even more, social media amplify the voices of noxious outliers.** And it is easier to condemn those voices than to **identify how to destroy Hamas and safeguard Israel, so condemnation is more prevalent than strategic analysis...** We should be willing to criticize Israel if its actions place too little value on Gazans' lives — even as we distinguish between its actions and the intentional killings committed by Hamas. People who cannot bring themselves to state the most obvious truth about what is happening in the Middle East, however, **deserve no place in our public debates. Marginalizing them is possible because they are, indeed, a fringe**".

## IT'S ABOUT KILLING JEWS

Any objective overview of the Hamas motive for their sneak attack into Israel reveals only the genocide of Jews and taking of hostages, (as bargaining chips for video beheading). "*Genocide is as genocide does*". This is **NOT** new news, **as it is in the Hamas charter, their public declarations and most important, their Islamist tracking history.** Rarely is there any peace between Israel and neighboring

Islamic countries... (“Wherever he went in the Arab world, the [Grand Mufti of Jerusalem](#), Haj Amin al-Husseini, stirred up trouble against the local Jews. He was the driving force behind the pro-Nazi coup in Iraq leading to the [Farhud](#) massacre of hundreds of Jews in June 1941—... Escaping to Berlin when he was **Hitler’s lavishly funded wartime guest...**”). See [The REAL Reason Hamas Attacked Israel](#): Glenn Beck, Ben Shapiro, Dave Rubin REACT from Glenn TV | Ep 310 101223. 48-M Video and Transcript. Selection: “... Every once in a while, evil manifests itself in physical form, and that is what we saw this weekend in Israel in Hamas’ depraved attack. **The surprise attack killed over 1,000 people and injured more than 4,000, and the count of dead and wounded is rising every day.** Israel Prime Minister Benjamin Netanyahu told the world in Hebrew: “What we will do to our enemies in the next few days will echo for generations.” As of this taping, it’s reported that Israel is preparing an imminent ground invasion in the Gaza region. Glenn warns this episode is going to be hard. **He shows evil incarnate in videos and images and tells the stories for the dead, because the time of choosing is now...**

... **We cannot hide from this evil.** Glenn dives into the difficult questions: How involved was Iran? What was the Biden administration’s role in enabling the massacre? How did the CIA and Mossad fail to intercept the planned attack? How should the U.S. respond? The Daily Wire’s Ben Shapiro joins to explain **why we need to watch the horror** and says the actions of Hamas are **"beneath animals."** Shapiro praises Biden’s decision to move U.S. aircraft carriers to the eastern Mediterranean and says he doesn’t believe we’re headed into World War III, **IF the West continues to do the right things to push back on Hamas and Hezbollah.** BlazeTV host Dave Rubin joins to **debunk the lies from the Left** about Israel’s right to exist and defend her ancient homeland and calls the surprise attack “the second attempted Holocaust. Period.” Glenn adds THAT is the REAL reason for Hamas’ invasion: **“THIS IS NOT ABOUT TERRITORY. THIS IS ABOUT KILLING ALL THE JEWS”.**

## BIDEN IS WRONG AGAIN?

As Robert Gates, former defense secretary in the Obama administration, once put it, Biden has “[been wrong on nearly every major foreign policy and national security issue](#) over the past four decades.”... Speaking to a fellow Democrat about [Joe Biden](#) being the party’s nominee in 2020, [Obama famously warned](#), “Don’t underestimate [Joe’s ability to f–k things up.](#)” There is no legitimate claim the former president was wrong about his vice president. The evidence that he was on target is everywhere, from the border to the economy to the crime explosion on Biden’s watch”... Now, his administration appears to have factually and wrongly taken the side of hate filled Islamists. Whose side is he on? Is it happenstance, coincidence, or enemy action? You decide: “[White House slammed for ‘tone deaf’ unveiling of anti-Islamophobia strategy as antisemitism surges.](#) The Biden administration faced backlash Wednesday after announcing that it would develop “the first ever US National Strategy to Counter Islamophobia” in the US amid rising levels of antisemitism... “According to the [FBI] director, **JEWS MAKE UP 2.4% OF THE US POPULATION BUT ARE THE TARGETS OF 60% OF HATE CRIMES...** This is why it is apparently important to fight Islamophobia according to the White House” (??) See 13-M Video and transcript: [White House shows TRUE COLORS](#) with announcement on ... ISLAMOPHOBIA?! Harvard students surrounded and intimidated a Jewish student during a recent protest, anti-Semitic threats are on the rise in America, and Hamas is being very honest about how it wants “the annihilation of Israel.” So, what did the Biden administration do? Of course, it set up the first “National Strategy to Counter Islamophobia.” Glenn believes “this is revealing...who the White House really is.”

## VP HARRIS BEATING MARXIST EQUITY DRUM

It is KEY that we understand that the term 'Equity' has about **zero connection to the word "EQUAL"**. From RealClearEducation.com 021023 by Wai Wah Chin [The Equity Delusion and Its Marxist Roots](#). Selections: "... The ensuing *investigation* launched by Virginia Attorney General Jason Miyares now covers *17 high schools in 3 counties*. *Parents Defending Education* also *revealed* that *TJ omitted the prized "honors" designation* from the college application transcripts of 2,000 of its top students. Why did these schools engage in such subterfuge **against their highest-achieving students? In a word, "equity."**... diversity cannot be implemented without invoking "representation" – the prejudicial flattening of individuals into **mere "representatives" of their races** – which is *inherently racist, collectivist, dehumanizing, and socially corrosive*. From *Heather MacDonald* calling diversity out as a *delusion* to *Christopher Rufo* unmasking **"diversity training" as a scam**... Such equity is gratuitous, and **grabs credit fraudulently**. Equity invoked as part of [DEI](#) is every bit as racist and prejudicial as diversity and inclusion and is just as weaponized for collectivist reward and punishment. For example, equity is invoked to justify *explicit racial allocations* in medical school admissions, doctor hires, and *distribution of medical treatment*. **Letting race override competence or science literally risks lives...** Besides the injustice from racism, the unfolding equity initiatives already *damaged educational excellence*. Equity has many variants, but **essentially, equity aims for equality of outcomes**, ruling in favor of groups based on overlapping, or "intersectional" oppressions – **in diametric opposition to our treasured principle of equality, which aims for equality of rights for individuals...**

... This just **rehashes communism's slogan**, "from each according to his abilities, to each according to his needs," which dates back to *before* Karl Marx. **Equity, in this context, demands that we confiscate and redistribute**, all while employing discrimination to achieve its ends. In pushing for equal outcomes, equity is deeply delusional. **The first delusion is that 100% can be the top 1%**. The object of contention – whether it's getting into Harvard, the Chicago Symphony, the Mayo Clinic, or the NBA – is limited in availability. **Excellence is, by definition, scarce...** The best processes for granting these scarce spots evolved to select for PERFORMANCE... Equity, though, wants to be **performance-blind**. That's delusional. The realities of scarcity and performance compel equity to deliver the **lowest common denominator**; that's the only way to deliver equal outcomes. It is no accident that *standards are lowered* when *equity trumps merit*. Once again, equity's happy promise is a delusion; **equity makes us worse off**. **Equity, being a failed delusion, doesn't deliver the desired outcome, and to reach equity's promises, equity steals openly**. This is not surprising. Marx understood early that Communist Liberation requires dismantling property rights – i.e., state-sponsored confiscation. **But for equity, it's also confiscation of achievements, contributions, and individual rights...** Equity deludes when it postures that 100% can be the top 1%, when it **pretends that performance doesn't matter**, when it promises happy outcomes for all, and when it's **just communist theft and confiscation** by another name. As part of DEI, equity is also racist. It is time to dispel equity, the last triumvir of the DEI delusion...". **Equity is 'steppingstone' on the way to socialism**, also see AMAC.us 052021 by Robert B. ## CRIMINAL ARRESTS

Ohio, Cleveland, A follow-up on targeted violent criminal enforcement by cooperative LE agencies has apparently been successful. **As usual, sex and race of criminals and victims is not specified**, (blame is on "Young people" [BOLO young people?](#))), so the public is left to make their own conclusions from any video coverage where they view perpetrators for themselves. From

Authorities say the crackdown on crime in Cleveland is beginning to pay dividends. DeWine said: "What we're finding is a couple of things, as I talk to police officers and mayors across the state. One of the things we're seeing is the number of younger and younger people who are committing violent crimes. Those numbers are just going up. As the age goes down, the numbers go up. **That certainly is a societal problem that we have to tackle**".

From ACT for America, 091223 Selections: "...*Index of Military Strength into the ground! Brown has served as the Air Force chief of staff since 2020. 2023 Index of Military Strength notes that under his tenure, the Air Forces military strength has descended from 'marginal' in 2021, to 'weak' in 2022, and to **the lowest mark of 'very weak' in 2023.** Brown has demonstrated what it means to be a failed military leader who should be demoted, not promoted! His woke policies have had a devastating effect on the military's traditional standard of merit, including combat readiness, combat performance, unit cohesion, confidence in leadership, and morale. The direct effect Brown's woke policies have had can be plainly measured by his failure to fill recruitment quotas, to recruit and enlist officers of the 'wrong' skin color, to retain our best warriors, or to operate on a budget. We cannot allow our military leadership to engage in race discrimination and race preference. We need a leader that unites and restores our traditional standard of merit, restoring morale and faith in the institution!*
